

Cashier Recycler
(Banknotes, Coins, Checks)
The Solution for Cash Management
Multi-Sectorial Equipment

MoneyGuard Cobra Plus is machine specifically designed for banking market. The will to automate cash management, reduce costs and give users a continuous queue less service, has made us develop a compact multi functional machine.

The MoneyGuard Cobra Plus needs a small place for installation: 750x750mm (width x depth)!

The machine has 4 recycling drawers, a dispensing drawer, a scanner to accept documents and checks (Optional) and a coin recycler.

The MoneyGuard Cobra Plus is BCE certified in the TARM's (teller assistant recycling machine) category.

The main features of this machine are:

- **More Small**, measures only 750x750mm
- **More Cheap**, it's 30-40% cheaper similar performing machines on the market.
- **More Complete**, a compact and solid ALL-IN-ONE piece of equipment.
- **More Versatile**, it can handle all kinds of transaction with a dynamic software
- **More Safe**, with its shutting system and build access for wrongdoers is very hard.
- **More CIT ready**, designed to be charged and emptied from the armored car, the double key access system, the safety seal drawers and the easy access made it a unique machine easy to operate.

Directed Sectors: Financial institutions, casinos, gambling halls, Retailers, public transportation and municipalities, traveling (tax payment) Treasury notes, and etc.
